Fellow Lions, as you can see we still continue to decrease in Membership. I believe the major problem is not finding New Members, the problem is retaining the Members that we have. I also believe that the loss of members is directly related to the fact that over half of our Clubs are either not reporting Service work in their communities or are not providing VISIBLE service work in the communities. Who wants to join the Lions Club to raise funds and not provide SERVICE in the community? We need to return to our motto We Serve and help our Clubs understand that Fund Raising is NOT Service work!
